## Student Terms English 325 As Popular Course

Dr. Margaret Hughes, English 325, is one of the most popular courses in the college. The students who take this course are usually those who are interested in literature and writing. Dr. Hughes is a very experienced teacher and her classes are always well attended. The course is a required one for many students and it is a very important part of their education.

The course is a very interesting one and it is a very good way to learn about literature and writing. Dr. Hughes is a very good teacher and her classes are always well attended. The course is a required one for many students and it is a very important part of their education.

## Freshman Catalogs First Impressions

When I first arrived on the campus of UTMB that Sunday afternoon, not only was I scared, I was terrified. Feeling so awkward alone and out of place, I struggled to make a home out of an empty dormitory room and remember hundreds of new faces and names. I must admit that at first it all seemed quite hopeless and frustrating. Just when things were going fine, a teacher would change a minor detail in my schedule and the whole morning's work would collapse in my face. There, I would be back at the end of the line where I started. Surprisingly, though, my adviser was as pleasant the third time I came back to her as she was the first.

When that certainly wasn't enough, I quickly learned that the school was a very busy place. There were many things to do and many people to meet. It was a very exciting and challenging experience. I was very lucky to have a good adviser and a good teacher. They helped me through the first few weeks of school and I am very grateful to them.

## Initiation For Freshmen Is Out

Freshmen initiation by the upperclassmen at UTMB has been outlawed.

The ruling came as a result of recommendations by the A-SA following a study made spring quarter which they made at the request of the Student Faculty Organization Board.

The following rules governing freshmen initiation have been adopted: no formal wearing of beanie except one week prior to Homecoming; no air raids, kangaroo courts, or any other juvenile harassment; clubs and Greek organizations are to be responsible for their own initiations.

Prof. H. C. Allison, professor of physics and freshman counselor, stated that so far that there has been very little freshman hazing by the upperclassmen. He added that he and the other faculty members are very pleased with the manner in which the upperclassmen have conducted themselves.

He also added that the relationship between the freshmen has improved noticeably over previous years. More important, Prof. Allison added, the ending of freshmen initiation activities will bring about an increased academic average.

Many of the upperclassmen feel that initiation should still be held on the UTMB campus as it was in previous years. All of them seemed to be in mutual agreement however, in saying that it should not be carried to extremes.

Freshmen opinion on initiation seems to be divided. Many of them stated they were for initiation while others stated that they were "glad I don't have to go through it."

## Mail Delivered Two Years Late

By Ed B. Chenette

Neither rain nor hail, sleet or snow or out can stop the mailman from making his daily appointed rounds. So reads the creed of the postman, approximately at least.

And so the mail always goes through. Usually it takes only a few days or less for a letter to reach its destination. Of course, there are exceptions.

Take for instance a letter which was received by the Dept. of Military Science Sept. 24, 1962. The letter was forwarded from Knoxville and date of postmark was June, 1960.

No one knows where the letter has been wandering these past two years except that it had Texas postmarks. It has evidently been hiding some place for the last two years but as to where that's anyone's guess.

So, evidently the mail always goes through, even though it may be several years late in arriving at its destination.

## Car Stolen Here Last Wednesday

A car belonging to a UTMB student was stolen last Wednesday night, Police Chief Cecil Levister said Thursday. The car was a 1961 white Ford Galaxie 2-door hardtop with a Georgia license. It belonged to UTMB student Mike Seigler.

Chief Levister said that the car was parked at the Parkview Hotel, where the youth has a room. It was taken sometime after midnight.

## Campus Character:

## Guess Who Sneaked By Dorm Mom Clad In Muu Muu, Leotard

By Ernestine McCall

Who could possibly escape from the girls' dorm under Mrs. Iva Corum's watchful eye attired in a red leotard, a multi-colored muu-muu, sun glasses and smoking a Swisher-Sweet cigar? Peggy Wall, of course. The above describes one of her favorite ensembles for Vanguard play practice.

Versatility is the word for Peggy, a UTMB senior. When

Being a member of Beta, Thespians, FHA and the P-Clubs occupied more of her time. In Who's Who Peggy was elected Best All Around, Most Likely to Succeed, and Best Personality. Aside from being valedictorian of her class, she also received the Daughters of the American Revolution Award, Arion Award in Music, and Woodman of the World Award in American History.

Peggy's father, Alvis M. Wall, is high deputy sheriff of Henry County. One of the most exciting periods in her life was the four years during which her father served as sheriff of Henry County. Since it is customary for the sheriff and his family to stay in the living quarters at the jail, the Walls actually lived in the jail those four years. Peggy recalls one incident in which the police were chasing a criminal through the streets. The criminal, seeking a place to hide, ran into what he thought was the hotel only to find himself right in the middle of the jail! Peggy also related the humor in finding home-brew whiskey in a spare tire.

This is Peggy's fourth year at UTMB; her influence here has been remarkable. Last year she very capably served as president of the Main Women's Dorm. She acted as ASA representative her sophomore year and will do the same in this, her senior year. Last year she was vice president of the Chi Omega Sorority. She received an ASA Leadership Award and was named to Who's Who in American Colleges and Universities. Peggy has always been an honor student and for the past three years has received education awards at Aloha. She is a member of Vanguard and was named Best Supporting Actress last year. In her junior year she worked as a biological science laboratory assistant. This year she has been elected to serve as secretary of the SNEA and All Students Association. Peggy will graduate in June with a bachelor of science degree in education. She plans a teaching career in secondary education.

PEGGY WALL

she was in the third grade, Peggy began singing along with her father in a band. She took voice lessons one year, accordion three years, and piano five years. She also plays the ukelele. During high school Peggy sang with a group of seven girls on many occasions including State FHA conventions and TV programs. Peggy presently sings and plays, entertaining all types of groups. She and Gene Treadway have written lyrics and composed music for songs. For some of these songs they have even cut records. Peggy sings in the school chorus; she was recipient of the Chorus Award her sophomore year.

Peggy graduated from Puryear High School, needless to say, with a number of honors. She lettered in basketball four years and was named an all-conference guard. She was elected sub-district president of the FHA and served as treasurer of her class three years.

## Summer Honor Roll Has Been Announced

Honor roll students for the summer quarter recently completed at The University of Tennessee, Martin Branch, have been announced by Mrs. Myrtle H. Phillips, registrar.

Students who made grades ranging in the A and B groups are placed on the honor roll. Among those whose names appear on the current list are:

Carroll — Sandra J. Hudson, Bruceton.

Chester — Wilbur L. Goodwin, Henderson.

Crockett — Edna Joyce Acord, Alamo.

Dyer — James A. Gardner, Bobby N. Lynn and George T. Moss, Dyersburg.

Gibson — Nina J. Cash, Bradford; Rena K. McMillin and James B. Sanders, Humboldt; Virginia R. Bell and Glenda N. Witherspoon, Rutherford; Paul R. Powell, Trenton.

Haywood — Thomas J. Esque, Brownsville.

Henry — Jane C. Kemp, Puryear.

Lake — Linda G. Long, Tip-tonville.

Madison — Billy Wayne Allen, 911 N. Royal, Joe H. Cobb, summa cum laude, Route 2, Lowell W. Crane Jr., 432 Wisdom, Ernest G. Daniel, 448 Jackson Street, Samuel O. Spruill, 1309 Martin, Stanford E. White, 100 Ingram, and Janet S. Williams, Route 1.

Jackson; Nancy K. McDaniel (summa cum laude), Medon.

Obion — Shirley W. Long (summa cum laude), Kenton; Dale F. Glover and Thos. W. Sellers, Obion; Michael D. Martin (summa cum laude), South Fulton; Kenneth H. Jones, Troy; Alice Dunlap, Jenny D. Forrest, Jane B. Hamilton, Faye R. Matthews and Jerry S. Muse, Union City.

Shelby — McGlade Ladd, Arlington; Jennie Lou Hall (summa cum laude), Capleville; James M. Cavender, 3184 Madrid Avenue, Memphis.

Wayne — Linda A. Graham (summa cum laude), Waynesboro.

Weakley — Dorothy Dianne Carey, Lou Ann Radford Eastop, (summa cum laude) and Mignon S. Wilson, Dresden; Michale A. Walker, Duketom; Jessie L. Hatcher, Greenfield; Vivian Bowie Beard (summa cum laude), Daniel E. Brasher, Norma Ruth Campbell (summa cum laude), Jessie A. Crockett, Charles T. Edwards (summa cum laude), James M. Waters, Catherine E. Williams and Jerry K. Williams, Martin; Sara E. Webb (summa cum laude), Palmersville.

Out of State — Robert W. Cartrett, Augusta, Ga., and Joan R. Lewis, Downers Grove Ill.

## Biology Lab To House Research

By Ed B. Chenette

A new micro-technique laboratory to be used in teaching the techniques of slide-making has been incorporated into the Biological Sciences Department.

According to Dr. James Moore, chairman of the Biology Department, the new lab has the two-fold purpose of teaching students the techniques of slide-making and of giving staff members a place to do that research which requires the making of slides.

Dr. Moore stated that with the present equipment they are able to kill and fix material, plant and animal, embed in paraffin, section the paraffin and stain the sections. He added that the present

ovens, a microtome for sectioning, staining jars and slide equipment includes paraffin varnishing tables.

Dr. Moore said that at present the lab is set up for five students. "We plan some expansion for next year as the course develops and more students become interested."

He stated that several of the staff members are already using the new lab in their research and that he himself is using it in his studies of the century and yucca plants.

Dr. Moore added that he will use the new equipment to photograph slides which he has been preparing for several months. From the photos he will try to interpret what has been recorded from the slides.

## Rev. Vaughan To Teach Religion

Rev. A. N. Campbell, head of the Federal AFB Dept. at UTMB, stated that the change would not affect UTMB at all with the possible exception of a large number of students from Martin who have entered in

the past few weeks. The change will affect the school year. One class will enter in September and the other in March, he said.

Welcome, New Faculty!

The Volette is pleased to welcome the new faculty members who are joining the UTMB staff this year. We are sure that their presence will add to the quality of our education and research. We look forward to working with them and to the many achievements they will bring to the college.

Clubs and Organizations:

# On-Campus Retreat Is Scheduled For Oct. 9

The third annual on-campus retreat will be held next Thursday, October 9.

This event will be jointly sponsored by the All-Students Association and the school social committee.

At the retreat Miss Bettye Giles, sponsor of the social committee, will explain to the representatives from each campus organization the rules regarding socials. The ASA will continue the program with a brief review of last year's highlights and a preview of the year's planned activities.

Another item on the program will be reports by the different campus organizations on the tentative plans for their social activities this year.

## Home Ec Club

The first meeting of the Home Economics Club was held Monday night Oct. 1 for the purpose of initiating freshmen members.

A general business session followed the initiation ceremony.

The annual club tea was held Sunday afternoon, Sept. 23, in the Home Management House. Approximately 100 freshmen, upperclassmen and parents attended.

The date of the next meeting is Oct. 15.

## Chi Omega

The Xi Zeta Chapter of Chi Omega held its annual summer social at Montgomery Bell State Park the weekend of August 24-26.

The highlight of the affair was a banquet held on Saturday.

Janice Grissom and Freda Sue King attended the Chi Omega National Convention at White Sulphur Springs, West Va., during the summer months. At convention they received in behalf of Xi Zeta Chapter a scholarship citation for having maintained the highest scholastic average of women's Greek letter organizations on campus.

On Saturday, Sept. 22, the chapter initiated two new

members. They are Ann Allred of Milan and Martha Prather of Selmer.

Each year the Chi Omega Sorority presents a social science award to a woman student who excels in one of the social science departments. Mary Alice Smith received this award for the year 1962.

## Faculty Women's Club

Dr. and Mrs. Paul Meek and the members of the Faculty Women's Club, entertained the new faculty members with a tea in the Main Women's Residence Hall Sept. 14.

Greeting the guests in the receiving line were Dr. and Mrs. Paul Meek, Mrs. Henry Allison, president of the Women's Club, and Miss Bettye Giles, past president of the Women's Club.

## Business Club

Awards for being the outstanding students of 1961-62 were presented to Kay Akin and Al Morris at the Sept. 31 meeting of the Business Club. Gerald Finley, president of the club appointed committees to make necessary changes in the constitution and to help construct the club's Homecoming float.

Prof. W. H. Baker, Head of the Business Club encouraged members to participate in the activities of the club.

## Men's Residence Hall

Larry Speight has been elected president of the Men's Residence Hall.

Other officers are Edwin Tritt, vice president; Jerry Smith, secretary-treasurer; James Wallace, reporter; Sammie Curl, ASA representative; and Jack Hadley, annual representative.

## Ag Club

John Harris has been elected president of the Ag Club for fall quarter.

Elected to serve with him are Billy Tines, vice president; Ralph Henson, secretary; Robert Counce, treasurer; Maurice Bullion, ASA representative; Mack Jones, reporter; Robert Wright, critic; Larry

Homesley, sgt. at arms; Edwin Tritt, annual representative.

The Ag Club members are preparing for their annual Barnwarmin' Dance, which is to be held in the gym Oct. 27.

## T-Club

Gene Brodie was elected president of the UTMB T-Club at the first meeting held Wednesday Sept. 26.

Other officers are Curtis Shelton, vice president; Emily Day, secretary-treasurer; Romeo Duncan, ASA Representative and Ted Sines, reporter.

## SNEA

Plans for the Homecoming float were begun by members of the Student National Education Association at its first meeting last night.

Mike Snow was appointed chairman of the float committee. Jane Burnett will be SNEA's candidate for Homecoming queen.

The association welcomed new members of the education department faculty, Professor Jimmy Alewine and Professor Kenneth D. McCracken. Dr. Glenn S. Gallien, head of the department, announced that 401 are enrolled in education.

SNEA officers for the year are Jerry Rochelle, president; Bob Hurt, first vice president; Alma Greer, second vice president; Alyce Ann Pique, third vice president; Peggy Wall, secretary; Janice Sue Fields, treasurer; Edith James, reporter; Mike Snow, ASA representative; Ray Newbill, annual representative, and Linda Moore, publicity chairman.

## Engineering Club

Bert Headen, sophomore, was elected president of the Engineering Club in the first meeting held Sept. 24.

Other officers are David Garrett, vice president; Leslie Freeman, the only girl enrolled in freshman engineering; secretary, Harold Jennings, treasurer; Buford White, ASA representative, and Jim Gardner, Volette reporter.

Returning as sponsor was Prof. Paul Horne and joining him for the coming year is B. J. Fisher.

## Women's Main Dorm

Cile Bramham has been elected to serve as president of the main women's dorm for this year.

Other officers elected to serve with her are Martha Lee Woods, vice president; Kathy Pratt, secretary-treasurer; Freda Sue King, reporter; Betty Weems, annual representative; Emily Day, ASA representative; Ida Jane Bonner and Patricia Currie, devotional chairmen; and Jane Kemp, Martha Cload, Sandra Rust, Ann Clair Chandler, Peggy Wall, Ginger Lawson, and Carolyn Stormont, floor representatives.

Federal taxes today support wide ranging programs including national defense, foreign aid, public health research, conservation of natural resources, and many others.

# Torchbearer New U-T Publication

A new University of Tennessee bi-monthly publication, summarizing major events on all U-T campuses, came off the press this week.

Entitled the "Torchbearer," the publication will be printed five times annually with an initial circulation of about 37,000.

Receiving the Torchbearer will be U-T and UTMB alumni, faculty and officials, state and local government officials, Tennessee high school principals and libraries, college and university presidents, and selected business, industrial, civic, and educational lists.

Readers will find current developments on research, new buildings, major personnel changes, new study and research programs, faculty honors and accomplishments, and the like.

Published under the auspices of the U-T Development Council and Alumni Association, the Torchbearer is edited by the U-T Office of Public Relations, designed and distributed by the Publications Service Bureau, and printed by the Graphic Arts Service. Pictures are by the U-T Photographic Center.

# Robert Stewart To Give Recital

Robert Stewart, assistant professor of piano and theory, will give a recital on Oct. 22 at 8 p.m.

The recital will open with four rococo pieces. They are "The Tender Nanette," "Bandoline," by Couperin, "The Call of the Birds" and "The Hen," by Beethoven.

Rachmaninoff's Sonata, Opus 10, generally considered the most, specially of his works, will follow. The closing numbers will be "Sonatine," written in 1900 by Pyle, a teacher of composition at Duke University; "Prelude in E-Flat by Rachmaninoff; and last, "La Campanella" or "The Little Bells" by Liszt.

This program exploits to great advantage the many virtuoso techniques of Stewart's piano playing.

The recital will be open to students and the public without charge.

# Color Slides To Tell UTMB Story

A color slide presentation of life and work on the UTMB campus is being prepared for use in student recruitment, civic clubs and other groups.

These slides will be presented in view book type story form and will be of about 20 to 25 minutes in length. There will be pictures of students in the classroom, in the library, and on campus. Views of the buildings and other subjects will be featured.

These slides are designed to inform the public of the expansions being made on campus and the advantages and opportunities offered to students.

Wayne Tansil, public relations officer, and Noel Waller, UTMB photographer, began work on these color slides during the summer, and they plan to have them ready for use by late October.

# Growing Pains At UTMB Being Eased

UTMB's Growing Pains are being solved by the addition to campus facilities of three new buildings.

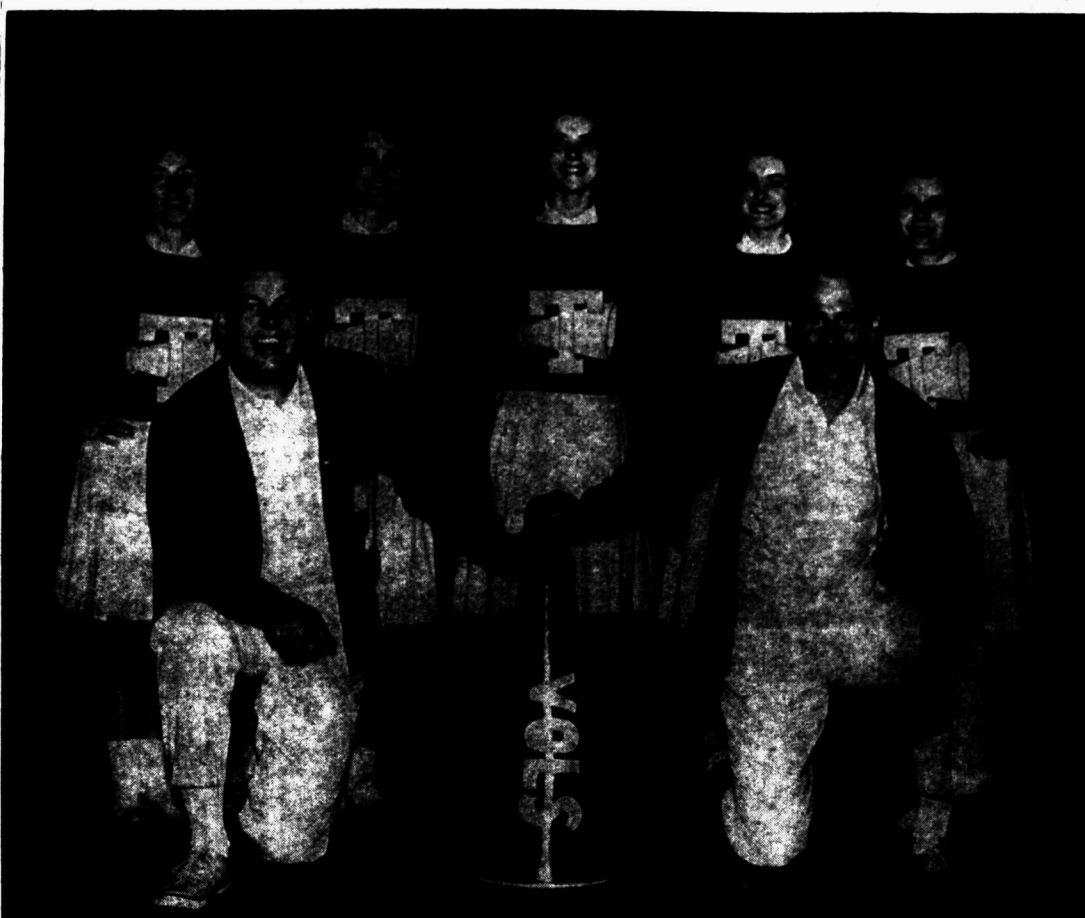

A total of around \$1,600,000 of new building construction is in the progress on the campus of The University of Tennessee, Martin Branch.

A new Physical Education building on west campus, across the Mt. Pelia highway, is well on the way to completion. The footings and part of the ground floor have been poured, and all but two of the girders for the gymnasium have been put in place. The building will house a number of dressing rooms, three lecture rooms, a number of offices, and two entrance lobbies. The completely modern gymnasium will seat approximately 4,500 spectators. The floor space covers a total of 43,500 sq. ft.

Also under construction is a new addition to the Women's Residence Hall. This addition has been made necessary by increasing enrollment. The building will have 214 places available by next fall or winter quarter, bringing the total capacity to 465. The

three-story addition will be air-conditioned and will contain 43,000 sq. ft. An enclosed patio or court alongside the corridor connecting the two structures will be one of the features of the completed facility. The total cost of the building will be around \$711,875.

To cover the heating needs that will arise when all of these buildings are completed a new heating plant is now under construction. The work was temporarily delayed pending the arrival of two new boilers; however, these boilers have arrived by train and will be placed in position soon. The boilers will be coal-fired and the steam will be piped underground to the various buildings. This new facility is expected to triple the present heating capacity. The cost of the building, when completed, will be about \$285,000. It is located across the street from the present site of the old heating plant. Hugh Scudder, general contractor, has said that it will be as attractive as any heating plant can possibly be.

New cheerleaders at The University of Tennessee, Martin Branch are (in the foreground l. to r.) Frank Fox, Union City; Jimmy Gardner, Dyersburg; standing (l. to r.) Martha Lee Woods, Henderson; Joetta Smith, Martin; Carol Glisson, Martin; Teddy Harbin, Whitehaven. Returning from last year's cheerleaders squad is Emily Day of Trenton.

# Seven Are Added To Cheering Squad

Elected as new members of the cheering squad are Teddy Harbin, Carol Glisson, Joetta Smith, Martha Woods, Frank Fox, and James Gardner.

The new cheerleaders, along with Emily Day, the only returning cheerleader, will direct the UTMB cheering section, at the football and basketball games this year.

The squad was selected from a group of 17 girls and two boys. The decisions were based on cheerleading ability, as well as popularity with the students.

Teddy, from Whitehaven, is a sophomore in Secondary Education. She has had three years of cheerleading experience.

Carol and Joetta, both from Martin, are freshmen in Liberal Arts. Carol has had three years of experience and Joetta two years.

Martha, who has had three years experience, is a freshman in Liberal Arts from the

Chester County High School in Henderson.

Frank is a junior in engineering from Union City. James, also in engineering, is a freshman from Dyersburg.

James and Frank have had no previous experience. This is the first time in several years that UTMB has had two boys on the cheering squad.

Emily, a graduate of Peabody High School in Trenton has had four years of high school experience and one year of college experience. She is a sophomore in home economics.

The election was held Sept. 20, in the gymnasium with the ASA officers and a faculty group selecting members of the squad.

More than 97 per cent of internal revenue collections are through voluntary self-assessment as contrasted with direct enforcement activities.

# ANOTHER YEAR, ANOTHER DOLLAR

With today's entry I begin my ninth year of writing columns in your school newspaper for the makers of Marlboro Cigarettes.

Nine years, I believe you will agree, is a long time. In fact, it took only a little longer than nine years to dig the Suez Canal, and you know what a gigantic undertaking that was! To be sure, the work would have gone more rapidly had the shovel been invented at that time, but, as we all know, the shovel was not invented until 1946 by Walter R. Shovel of Cleveland, Ohio. Before Mr. Shovel's discovery in 1946, all digging was done with sugar tongs—a method unquestionably dainty but hardly what one would call rapid. There were, naturally, many efforts made to speed up digging before Mr. Shovel's breakthrough—notably an attempt in 1912 by the immortal Thomas Alva Edison to dig with the phonograph, but the only thing that happened was that he got his horn full of sand. This so depressed Mr. Edison that he fell into a fit of melancholy from which he did not emerge until two years later when his friend William Wordsworth, the eminent nature poet, cheered him up by imitating a duck for four and a half hours.

But I digress. For nine years, I say, I have been writing this column for the makers of Marlboro Cigarettes, and for nine years they have been paying me money. You are shocked. You think that anyone who has tasted Marlboro's unparalleled flavor, who has enjoyed Marlboro's filter, who has revelled in Marlboro's jolly red and white pack or box should be more than willing to write about Marlboro without a penny's compensation. You are wrong.

Compensation is the very foundation stone of the American Way of Life. Whether you love your work or hate it, our system absolutely requires that you be paid for it. For example, I have a friend named Rex Glebe, a veterinarian by profession, who simply adores to worm dogs. I mean you can call him up and say, "Hey, Rex, let's go bowl a few lines," or "Hey, Rex, let's go flatten some pennies on the railroad tracks," and he will always reply, "No, thanks. I better stay here in case somebody wants a dog wormed." I mean there is not one thing in the whole world you can name that Rex likes better than worming a dog. But even so, Rex always sends a bill for worming your dog because in his wisdom he knows that to do otherwise would be to rend, possibly irreparably, the fabric of democracy.

It's the same with me and Marlboro Cigarettes. I think Marlboro's flavor represents the pinnacle of the tobaccoist's art. I think Marlboro's filter represents the pinnacle of the filter-maker's art. I think Marlboro's pack and box represent the pinnacle of the packager's art. I think Marlboro is a pleasure and a treasure, and I fairly burst with pride that I have been chosen to speak for Marlboro on your campus. All the same, I want my money every week. And the makers of Marlboro understand this full well. They don't like it, but they understand it.

In the columns which follow this opening installment, I will turn the hot white light of truth on the pressing problems of campus life—the many and varied dilemmas which beset the undergraduate—burning questions like "Should Chaucer classrooms be converted to parking garages?" and "Should proctors be given a saliva test?" and "Should foreign exchange students be held for ransom?"

And in these columns, while grappling with the crises that vex campus America, I will make occasional brief mention of Marlboro Cigarettes. If I do not, the makers will not give me any money.

The makers of Marlboro will bring you this uncensored, free-style column 26 times throughout the school year. During this period it is not unlike that Old Max will step on some toes—principally ours—but we think it's all in fun and we hope you will too.

## Coed Enjoys Work In New Orleans Mission

By Mary Alice Smith

Ten weeks in the fascinating city of New Orleans composed a summer of experiences I shall never forget!

The initial thrill was my first flight from Memphis to New Orleans in two hours! Soon after arriving in the "Crescent City" I met the 22 other college students who would be working at Baptist Mission points in the greater New Orleans area. We were all together for a two-day orientation period, which ended as we met the missionaries with whom we were to work and left for our various "summer homes."

My home from June 6 to Aug. 11 was at Carver Baptist Goodwill Center in a four-room apartment which I shared with two other student summer missionaries — Ann Matthews, a junior at Winthrop College, Rock Hill, S. C., and Tommye Gaye Chittom, a June graduate of Mississippi College. Grocery shopping and doing all the cooking was a new experience for all three of us, but we survived, and we even found it to be fun. Pizza was our specialty; we served it to all our guests, one of whom was a deaf-and-dumb seminary student. Talking to him in sign language was somewhat difficult, but very entertaining.

Ann, Tommye, and I explored a different part of the city almost every Saturday. We went swimming in Lake Pontchartrain, picnicking in Audubon Park, bicycling in beautiful city parks, and walking through the quaint French Quarter (in the daytime of course). One Saturday we drove with the other summer missionaries 70 miles down to Buras, La., where we all boarded an oyster boat and a shrimp boat and rode down the bayous to the Gulf. We went ashore at the point where we reached the Gulf and fished, played volleyball, roasted hot-dogs, shared experiences, and baked in the hot sun.

The most interesting experiences of the summer occurred in my work at Carver Center, which is located on the

river-front of N. O., in a predominantly Negro area. Under the direction of the two full-time missionaries at the Center, I taught four and five-year old boys and girls in the mornings. The children played outside for an hour and then went inside the Center for their classes, where they learned Bible stories, and Bible verses, sang songs about Jesus, and played. I shall always remember the day that little boy looked at a picture of Jesus and said, "I love Him." After several other children had expressed their love for Jesus, little Claude looked up and said "and Jesus loves us, too." In a lighter vein, I also remember the day when Herlinda called to me on the playground, "Don't play in the sun, Miss Mary Alice; you'll turn black!"

In the afternoons, I taught the Book of John to a group of 12 and 13 year-old girls. The outstanding incident in this class occurred as I finished explaining the meaning of harlotry to the girls. Mona Lisa, the smartest girl in the class, hesitated and then exclaimed "You mean that's wrong!" Harlotry was so common in her neighborhood that she didn't even realize it was wrong.

Yes, my summer in New Orleans was filled with many interesting experiences I shall never forget.

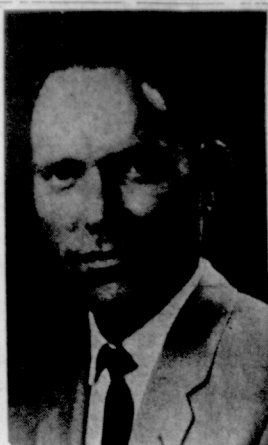

## Judging Team Vies At Fair

The UTMB livestock judging team entered the Southeastern Intercollegiate Livestock Judging Contest Saturday, September 22, at the Mid-South Fair.

Seventeen teams from 12 states participated in the contest. The UTMB team ranked 15th in overall competition. The team members are as follows: Jerry Lee, Murphree Bullion, Mack Jones, Bobby Whitworth, and Maurice Carroll. Ted Turner and Richard Robison served as alternates.

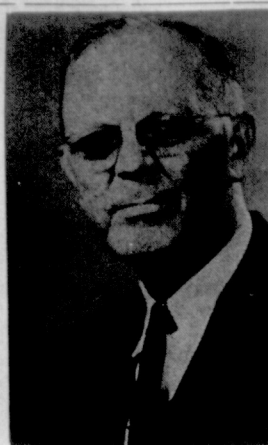

PROF. JOHN GAMMILL

PROF. McCracken

GLENN R. WIESNER

PROF. MCNEES

CHARLES R. GRAHAM

PROF. PUCKETT

JIMMY R. ALEWINE

DR. McCALL

MELVYN NEW

DR. WASMUTH

ELLIS M. WEST

## UTMB Faculty Gets New Look With Addition Of 13 Members

MISS MARCELLA RYAN

### 134 Taught In B.A. III Course

By Prof. W. H. Baker

Although not a startling innovation as far as other colleges and universities are concerned, but quite unique at the Martin Branch, is the method adopted by the faculty of the Department of Business Administration in teaching the fall class in Business Administration III.

Practically all freshmen and transfers, 134 students in all, are enrolled in the course. Four instructors are to teach the subject throughout the quarter. Each of the four will teach the area in which he or she has specialized most intensively. For example, Prof. Thomas Noble will teach some economics, the marketing, and management chapters; Prof. Howard Jones will handle the chapters on accounting and law; Miss Leah Grubbs will lecture on report writing; and I will handle the chapters concerned with finance, statistics, and one or two chapters related to economics.

B. A. III introduces the student to such major areas of study as accounting, general business, management, finance, marketing, transportation, business law, economics, and statistics along with a discussion of the techniques of report writing. The purpose of the subject is to present in a brief one-quarter survey an outline of the field in an effort to assist the students in selecting the major area of study in which they will concentrate after completing the 66 credit hours of liberal arts courses, which constitute the basic core subjects included in the several majors in Business Administration.

Thirteen new members have been added to the faculty of The University of Tennessee, Martin Branch, Vice President Paul Meek has announced.

Dr. John S. McCall has been appointed chairman of the English Department with the rank of associate professor.

Before coming to UTMB Dr. McCall filled the position of lecturer in English at the University of Southern Illinois for five years. He earned the doctor of philosophy degree at the University of Florida in 1957. He was awarded the master of arts and bachelor of arts degrees at Pardey University. Dr. McCall is a native of Toluca, Ill. Dr. and Mrs. McCall live on Oakland Street.

Dr. Carl R. Wasmuth will fill the position of assistant professor of chemistry. He did his post-doctoral research at the University of Arizona the past two years. Dr. West worked as chemist in the research division of Armour and Company of Chicago for three years. Prior to filling this position, he taught at Indiana University. Dr. and Mrs. Wasmuth are making their home on Lee St. They are members of the Lutheran Church. He is a native of Fort Wayne, Ind.

D. Hugh Puckett is filling the position of assistant professor of zoology. Professor Puckett has completed the course work for the doctor of philosophy at the University of Virginia. He earned the master of arts degree from the University of Virginia and the bachelor of science degree at Western Kentucky State College. In 1960-61, he was lecturer of zoology at the University of Virginia. Prior to that position, he served as professor of zoology at Norfolk College of William and Mary University. Professor Puckett is a native of Louisville, Ky. He and Mrs. Puckett and their three-year old son live on Lee Street.

Kenneth D. McCracken has been appointed assistant professor of education. He has completed the course work for the doctor in education degree. Professor McCracken earned the master of arts and bachelor of science degrees from Kansas State Teachers College. He served as graduate assistant at the University of Arkansas last year. Profes-

sor McCracken taught for a number of years in the secondary schools in Kansas and Arkansas. He is a native of Hyattsville, Kansas. Professor and Mrs. McCracken live on Poplar Street.

Charles R. Graham has been appointed to fill the position of instructor in physics. He earned the master of science degree at The University of Tennessee and the bachelor of arts degree at Vanderbilt University. He is a native of Sparta, Tenn., is a member of the Baptist Church and is a bachelor. He makes his home on Park Street.

Jimmy R. Alewine has been appointed instructor in sociology. He earned the master of arts degree at the University of Georgia and the bachelor of arts from Piedmont College. Mr. Alewine taught last year in secondary schools of Georgia. He served in the U. S. Navy during the years 1950-54. Professor and Mrs. Alewine and their three children live on Olive Street.

Chester McNees has been appointed assistant professor of chemistry. He earned the master of arts degree at the George Peabody College and the bachelor of arts from Arkansas State Teachers College. Prior to coming to UTMB, he taught for several years in colleges in Florida and for nine years at Memphis State University. Professor McNees is a native of Magnolia, Ark. and is a Methodist. He lives on East Main Street. Mrs. McNees is a teacher in the Memphis Public School System.

John M. Gammill has been appointed instructor in mathematics. He earned the master of arts degree from Mississippi State College and the bachelor of arts from Delta State College. For the past six years he has taught mathematics at Mississippi State. He is a native of Ackerman, Mississippi. Professor and Mrs. Gammill and son live on Alberta Street.

Glenn R. Wiesner has been appointed instructor in instrumental music and has been in residence since June. He earned the master of music and the bachelor in music degree at Drake University. Before coming to UTMB he taught at Pella, Iowa, and during the three years previously, he was instructor in music in the pub-

lic schools of Tripple, Iowa. He is a native of Vinton, Iowa. Professor and Mrs. Wiesner and daughter make their home on South College. They are Methodist.

Melvyn New has been appointed instructor in English. He earned the master of arts degree from Vanderbilt in August. He did his undergraduate work at Columbia University. Professor New served in the U.S. Navy for two years and was discharged with the rank of lieutenant, junior grade. He is a native of New York City. Professor and Mrs. New and son live on Moody.

Ellis M. West has been appointed instructor in English. He earned the bachelor of arts degree from University of Richmond and completed one year's work at Yale Divinity School and two years at the New York University School of Law. He is a native of Huntingdon, Tenn., and is a member of the Baptist Church. Mr. and Mrs. West moved to Martin Monday.

Miss Marcella Ryan has been appointed laboratory assistant in biology. She received the bachelor of science degree in education from UTMB spring quarter of 1962. Miss Ryan lives with her parents, Mr. and Mrs. J. H. Ryan of Martin. She is a Methodist.

Sgt. Robert C. Matthews, assistant instructor in military science, joined the Military Department on September 18. He is a native of Batesville, S. C., and prior to his coming to UTMB, he was stationed with the Second Infantry Division, Fort Benning, Ga. Sgt. and Mrs. Matthews and their son live at the D & G Trailer Court.

### Marine Recruiter To Visit UTMB Oct. 3-4

On Wed. and Thurs., Oct. 3 and 4, Capt. Floyd J. Johnson, officer in charge, with Marine Corps Officers Selection Team will be in the Student Center to discuss all marine officer programs with interested students.

Capt. Johnson invites students to come in and talk with him personally.

## Goals Set For UTMB Grew From Self Study

The University of Tennessee, Martin Branch has recently completed a self-study program from which, according to Vice President Paul Meek, a number of important recommendations, goals and needs have been brought forth for the improvement of the institution.

One of the recommendations, which has been taken care of, was that at the proper time the presiding officer of UTMB become vice president. Another was that department committees and other appropriate faculty groups be given a voice in establishing policies or for giving programs.

One of the more important needs Vice President Meek emphasized was the broadening of the courses offered at UTMB. He stated that the college needs more courses in music, art, foreign languages, history, sociology, chemistry, guidance counseling, and special education. He added that more elective courses should be made available for students in agriculture to give them a wider selection.

Giving more attention to the gifted student is another of the goals which Vice President Meek would like to see realized. He stated that the gifted student should be given a chance to do superior work. Also, that some of the gifted students be given a chance to

enter UTMB after completing only three years of high school.

One of the more important needs of UTMB, Vice President Meek pointed out, was that of a new, and separate library building. Another is to secure more new staff members and encourage the present staff members to obtain higher degrees. Other needs which he pointed out are a new education-music building, maintenance shops, football stadium, fraternity houses, and special houses for faculty members.

## Concert Time At UTMB Here Again

DID you know that charming Karen Duke is coming back with her guitar and a new batch of old times?!

DID you know you will have the opportunity to hear a really first class concert pianist, (a young fellow loaded with talent). If you've never you oughta'.

DID you know The Knickerbockers will be here this year? Two gorgeous gals and guys — singing from Brahms to Broadway.

IF you didn't know, keep your eyes and ears open, because it'll be FREE! FREE!! FREE!!! on your student activity ticket.

## Forty-Two Pledged To Three Sororities

The pledging of 42 girls on Monday night climaxed the sorority rush week activities.

The new pledges are as follows: Alpha Delta Pi: Paula Alexander, Sandra Bullington, Pamela Forrester, Alma Greer, Donna Hampton, Sandra Hughes, Gayle Johnson, Glenda Johnson, Lucy Lowry, Becky Maddux, Pamela Prince, Paulette Radford, Janice Robertson, Jo Ann Robertson, Diane Wyatt.

Chi Omega: Betty Blades, Jan Burnett, Jane Burnett, Emily Day, Carolyn Enoch, Suzanne Freeman, Carol Glisson, Annette Grissom, Carolyn Hague, Glenda Hampton, Emily Latham, Gail Parks, Joy

Pratt, Martha Lee Woods, Virginia Zachary.

Zeta Tau Alpha: Beverly Bell, Ruth Campbell, Barbara Carter, Clare Nell Chandler, Joy Durham, Sue Howard, Stephanie Krainik, Julia Lindsey, Lynn Page, Joyce Shelby, Carol Warmbrod, Evelyn White.

Preference parties were held Sunday afternoon in the homes of alumnae.

Saturday the emphasis was on informality at the three sorority lodges.

Rush parties began Friday evening when all the rushees were guests of the three women's Greek letter organizations.

UTMB's marching band made its debut Saturday night at the game with Aus-

tin Peay State College. Majorettes and guidon bearers lead off as band members

strike up a marching air.

UTMB coeds board Southern Airways plane at Everett-Stewart Airport en route to Paris. They are (fore-

ground l. to r.) Jennie Lou Hall, Joyce Cook, Ernestine McCall, Marita Moseman, and Gay Hill; (background

l. to r.) Patsy Bivens, the stewardess for the flight, and Judy Hilliard.

Weighing out the corn from the first agriculture experimental project to be conducted on UTMB camp-

us are, front row, (l. to r.) Larry Homesley, Danny Ratliff; back row, R. C. Owens, Pat Gay, Larry Elgin, John

Harris. Prof. Elmer Counce of the Agricultural Department is in charge of the project.

## Corn Is Harvested From Experiment Plat

The Volette of May 26, 1962, printed the initial story of the first experiment with corn on the UTMB farm.

The purpose of this experiment was to test 36 different varieties of short season corn. Every controllable factor that would create a difference in yields was eliminated. This was done by having soils, seed-bed preparation, fertilization, and other minor controllable factors the same in each plot.

Populations of the corn were standardized at the rate of 14,000 plants per acre. Each plot consisted of two rows of corn that were ten feet long and 40 inches apart and duplicated six times. Immediately after the plots were planted in May, they were sprayed for seasonal weed control and were given other treatment normal to that of any good farmer.

On Sept. 25, 1962, the University variety tester, Charles Graves, assistant professor of Agronomy, and Mr. Elmer

Counce, assistant professor of agronomy, examined every plot of each variety. They recorded the characteristics of each variety and rated them according to desirable standards of insect resistance, number of ears per plant, husk cover, strength of stalk, height of stalk, and height and uniformity of ears. The corn from each plot was harvested and weighed. One quart from each area was shelled to judge grain quality and moisture content. The yielding ability of these varieties will be calculated on standardized moisture calculations.

It was obvious to all the agriculture students who assisted in the harvest that there were considerable differences among the 36 varieties.

The experimental data from these plots and others like them throughout Tennessee will be published in a U.T. Experiment Station Bulletin "Variety Testing in Tennes-

see, 1962," by Charles Graves, U. T. Agriculture Experiment Station. Experiments of this nature are to be continued on the UTMB farm in coming years.

It is through this type of work that agricultural scientists, manufacturers, and farmers can use varieties in judging the more important selection that they will use.

### How the Opponents Fared Last Week

Murray State beat Eastern Ky, 17 to 14.

Delta State beat Jacksonville State, 41 to 13.

Carson-Newman tied Emory and Henry, 7 to 7.

Missouri Mines lost to Kansas State, 28 to 6.

Florence State lost to Arkansas State, 23 to 14.

## Beethoven Did Not Write All Long Hair Stuff

By Ed B. Chenette

When many of us think of Beethoven we usually associate with him what is commonly called "Long Hair" or, in other words, classical music. For the great majority of us who are not knowledgeable of the finer points of music such as counter-point or the keys of D-sharp major and E-flat minor, listening to, and more important, understanding Beethoven's music can be impossibly hard.

However, such is not the case with all of his music. There is a piece he wrote in 1813 which many students of music decry as being classical and a very few who claim that it is not even music at all.

This work of Beethoven's is entitled simply "Wellington's Victory."

The score, as Beethoven wrote it, calls for an orchestra representing the French camp, another taking the part of the British, and a main orchestra. Included are provisions for three cannon and a goodly number of muskets of the type used during the Napoleonic Wars.

From the placement of the three orchestras and of the weaponry it could almost be thought that Beethoven foresaw the advent of stereophonic sound recording. For he placed the French orchestra to the left, the British to the right, and the main orchestra in the center. The cannon and muskets he placed with their respective orchestras.

The placement of the three orchestras makes the music relatively easy to follow when using stereophonic reproducing equipment for the orchestra representing the French army comes from the left channel, or speaker, and the British from the right channel.

The piece begins when there is heard, as if out of nowhere, a faint drummers tattoo from the right speaker, or English army. Other drums join in and quickly and surely build to a loud and thunderous roar of sound. Above the pounding of the drums the trumpets bring forth a stirring battle cry. To cap this brilliant fanfare there is a rousing performance by the brass section of "Rule, Britannia." There is a pause of utter silence followed by the French from their side with their own trumpet and drum fanfare and the war song "Malbrouck s'en va t'en guerre," known here as the "Bear Went Over the Mountain." Another pause.

With these preliminaries over the French hurl their battle cry at the English, challenging them to fight. The English accept, throwing back the original battle call with their higher-pitched trumpets.

The battle is joined. The battle is a clamorous roar of the sound of musket and cannon firing with each of the two orchestras playing their sides respective battle song. Above it all can be heard the English and French trumpets, rallying the troops.

At one point the Frenchmen seem to gain the upper hand. Their volleys of musketry are heavier than those of the British and the trumpet calls seemed to have gained in strength and power.

But the British hurl them back with the sound of their orchestra, trumpet cries, and cannon and musket firing overpowering even that of the French.

Finally the English have the French on the run. Their entire orchestra takes off at what seems a tumultuous gallop in pursuit of the enemy.

The British have gained the upper hand. The French cease firing and the army of Bonaparte grinds to a halt in a pathetic version of the "Malbrouck" song. The victors fire a final, parting cannon volley. The battle is ended.

Now the main orchestra takes over with a brilliant, brassy finale of victory featuring "God Save the King," known in the United States as "America, the Beautiful." The piece is brought to a glorious finish with a tremendous roll of the kettledrums.

## UTMB Freshman Is Named Pork Queen

Janice Green, UTMB freshman, reigned the week of September 23, as the first "Mid-South Pork Queen" in Memphis.

She was crowned Sunday afternoon at the Mid-South Fair by James Nance, president of the National Livestock Association.

Janice was selected from a field of girls from Mississippi, Arkansas, and Tennessee. A panel of three judges chose the new queen on the basis of her beauty, talent, personality, poise, and a five-minute talk on the pork industry. The contestants were interviewed at luncheons and questioned on their hobbies and interests. While reigning at the fair Janice was entertained at luncheons and banquets and she made several television and radio appearances.

She will represent the Mid-South at the national competition which will be held in Chicago, during the Thanksgiving Holidays. She and her chaperon will fly by jet for an all-expense paid trip as the guests of the Armour Meat Packing Company.

Janice is the daughter of Mr. and Mrs. Carlus E. Green, Sr. of Trenton. She represented the Gibson County Livestock Association at the Mid-South competition.

## UTMB Adds 42 Acres To Campus

Forty-two acres of land has been added to the main campus of the University of Tennessee, Martin Branch.

Purchase of the tract from Dr. Paul B. Starks, professor of animal husbandry at UTMB, was announced Monday afternoon by UTMB officials.

The property includes a recently-built brick house, a frame house, and two barns. Business manager Gene Stanford stated that the brick home and frame house, which has two apartments will be rented to members of the faculty. The larger of the two barns is to be used by the Buildings and Grounds Dept. for storage and maintenance of equipment.

Mr. Stanford pointed out that the land will be used by the Agriculture Dept., possibly for research work. He added that the purchase of this land will provide for the future expansion of UTMB.

With the purchase of this land, which adjoins the baseball field, UTMB now owns all the land extending from the Union City Highway to the R. A. Collier home.

## Vols Trounce APSC For Second Victory

The UTMB Vols led by the passing attack of Vernon Prather and Billy Watson stopped Austin Peay State 16 to 0 Saturday night before a record opening game crowd of 2,500.

Coach Robert Carroll's squad had previously defeated Arkansas State Teachers on September 22 by a 13 to 6 score in Conway, Ark., before 2,500 football fans. It was the first win over the Teachers in four years.

The Austin Peay contest gave the Vols their first win in the Volunteer State Athletic Conference. Darrel Smith scored the first Vol touchdown in the second quarter with a two-yard run after the team had driven 52 yards from the UTMB 48 yard line where Bob Zachary had intercepted a Gov pass. Freshman fullback Joel Dickens booted a high kick but failed to score the extra point.

The game featured the fine play of sophomore halfback Tom Pickens who took the second half kickoff on the four yard line and brought it up to midfield. The Vols then drove to the APSC 24 yard line where Billy Watson passed to end Scott Boehringer for a touchdown climaxing a 96 yard drive. Watson passed to Jerry Gage for the two extra points.

The Vols scored again when they caught an Austin Peay player in the end zone. Nick Stellavato, Vol guard, initially tackled the Gov scoring a safety for the Vols.

The Austin Peay team never seriously threatened in the ball game. Their farthest penetration was to the UTMB 24 yard line.

In their first game of the season UTMB quarterback Vernon Prather fooled the Arkansas State Teachers defense with a reverse and passed to end Jim Love for a touchdown play that covered 50 yards. Joel Dickens' kick was good

for the extra point. At halftime the Vols led 7 to 6.

In the third quarter at Conway, UTMB had the ball on its 11 and fourth down. Gene Brodie's punt was rolling near the Vols' 40 yard line when an ASTC player dived for the ball fumbling it and Vol Scott Boehringer recovered. The UTMB's went on from there to their second touchdown. Vernon Prather pushed over from the two-yard line.

The game cost the Vols the services of guard Sonny Gilbert who suffered a broken leg and will be out the entire season. Wilbur Edmiston, a star halfback, sustained a dislocated elbow and will be out for several weeks. Tackle Sonny Pitts was also injured and will be out for some time. The ASTC win was the first opening game victory for the Vols in two years.

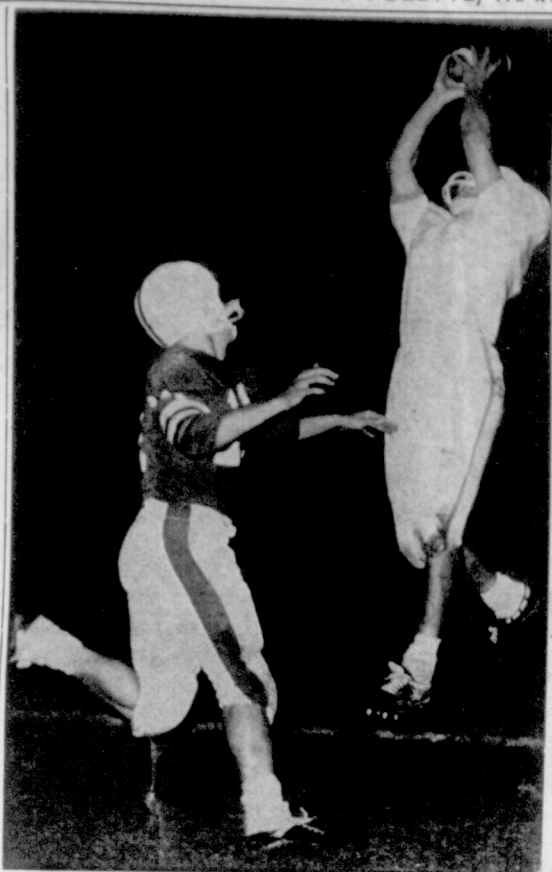

## Rest Rooms Are Added To Field

A community project undertaken early in September is beginning to take form on the athletic field.

Men and women's rest rooms are being constructed for use during football games and other events held on the athletic field. They are located in a building on the north end of the field near the scoreboard.

WCMT, the local radio station, contacted lumber firms, builders, hardware stores, carpenters, plumbers, and brick masons and interested citizens for donations to the building. A number of firms responded wholeheartedly.

The contributors included C & M Lumber Co., Sharon Lumber Co., Vowell & Sons, Inc., Overton Builders Supply, Puckett Lumber Co., McKenzie Block Co., McAdoo's Builders Supply, Greenfield Lumber Co., Vaughn's Furniture, Harkey Hardware, General Supply Co., Home Supply Co., Royster-McAlpin Well Drillers, Knox Hardware, Dale Royster Plumbing, E. J. Johnson, George Byars, W. J. Johnson, Alton Tuck, Curdean Campbell, J. W. Campbell, Garlin Bell, Walter Gardner, and Willard Rooks.

## Cheering Squads Attend Clinic

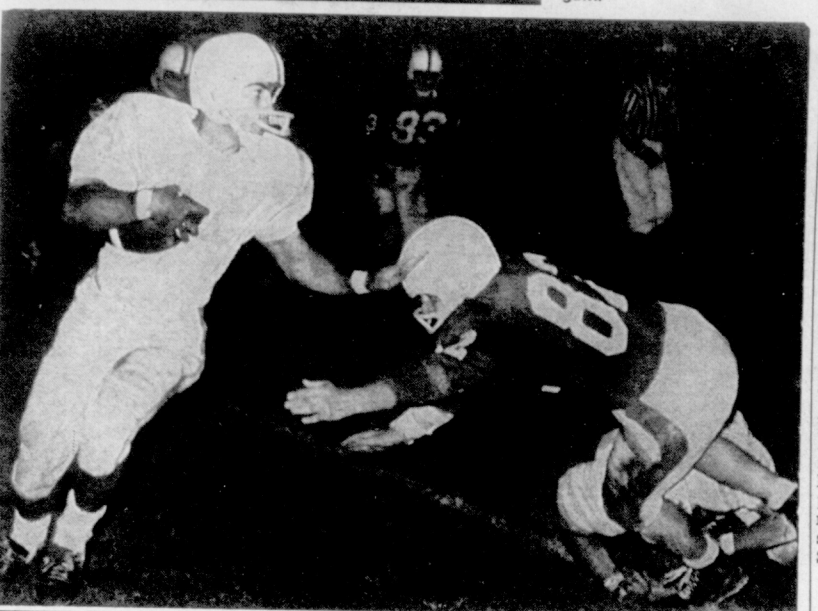

Fifty-nine high schools and colleges were represented at the fifth annual UTMB Cheerleader Clinic held Sept. 24, and sponsored by the Physical Education Dept.

Lawrence R. Herkimer of Dallas, Texas, was featured in the clinic which was attended by over 450 students and sponsors.

Mr. Herkimer, executive secretary of the National Cheerleaders Association, has conducted special courses for cheerleaders in leading high schools and colleges in 42 states.

Hosts for the clinic were the UTMB cheerleaders under the direction of Miss Bettye Giles, director of women's physical education.

Two incidents in the football game against Austin Peay Saturday night show why UTMB won the game 16-0. At left Scott Boehringer was successful in catching a pass over the goal line for a TD. Below, Tom Pickens thwarts a would-be Gov. defender with a good left arm and goes for a sizeable gain.

## UTMB To Meet Two Tough Foes

Missouri Mines and Murray State are the Vols next opponents.

The UTMB squad plays the Miners at Rolla, Mo., this weekend with the Murray State Thoroughbreds scheduled for the next Saturday in Martin.

The Miners have yet to win over the Vols. They'll be looking for a victory on their home field. They are stronger this year than in recent seasons. Coach Gale Bullman has 17 returning lettermen from last year's squad. They finished second in the Missouri Intercollegiate Conference last year and are a leading contender this season.

Murray State will send a strong team against the Vols on October 13 in Martin. Their offense features a fine passing attack with quarterback Tony Fioravanti doing most of the throwing. The Thoroughbreds had 19 lettermen to return from last year's squad that finished fifth in the tough Ohio Valley Conference.

## New Choralairs Are Top Singers

The UTMB music dept. is sponsoring a new vocal group called the "Choralairs" according to their director, Miss Harriet Fulton.

Miss Fulton pointed out that the members of the new vocal group had been especially picked because they had more involved music training than the regular chorus.

The "Choralairs" will present a series of programs during the year featuring various types of music including folk, sacred, and humorous songs.

Members of the "Choralairs" include the following: Sopranos, Sue Boone, Mary Douglas, Sandra Gardner, Marilyn Mann, Peggy Smith, Carolyn Virgin; Altos, Brownie Argo, Terry Culvahouse, Lynda Dunlap, Annette Grissom, Joan Haynes; Tenors, J. T. Patterson, Taylor Johnston, Don Speight, Dennis Matlock, Robert Wright; Baritone, James Pratt, Jack Arant, Joe Stroud; Basses, Dickey Hurcherson, Don Taylor, and David Haynes.

## Nominees Selected For ROTC Sponsors

Fourteen nominees for sponsors of ROTC have been chosen.

The girls selected are Linda Long, Sherry Crum, Barbara Missimer, Glenda Hampton, Amanda Lashlee, Nancy Williams, Linda Martin, Terry Culvahouse, Nancy Tice, Jane Burnett, Linda Cox, Emily Day, Patsy Bivens, and Sandra Westbrook.

From these candidates six girls will be chosen in the elections to serve as cadet sponsors for the coming year.

The ROTC rifle team will fire six shoulder-to-shoulder matches and 35 postal matches during the current year, according to Capt. Thomas Petty.

In the shoulder-to-shoulder matches the UTMB team will compete against Murray State, Vanderbilt, Florence State, Columbia Military Academy, Castle Heights Military Academy, and Tennessee Polytechnic Institute.

The team numbers ten members this year. In competition all members will fire and the score taken from those five scoring the highest.

The first postal match will be fired Oct. 6, against the University of Alabama. The first shoulder-to-shoulder match will take place here Oct. 13, against Murray State and Columbia Military Academy.

This year promises to be one of the best the ROTC band has ever had, according to Capt. Thomas Petty.

Capt. Dana Tumire, who is in charge of the band, said he feels the band will be especially good since many of the members look promising. He added that it would also be influenced by the greater variety of instruments which are being used this year.

The band has a total of 38 members which is about the same as last year. It will play traditional army marches and, of course, "Dixie."

Capt. Tumire stated that the band will not play at the college football games because "We feel that the college band, which is just getting organized, should be the one to play at the games." However, the color guard will present the colors at the start of each game.

A total of 533 students has enrolled in ROTC for the fall quarter.

This is an increase of 13 over the previous year and the largest number ever enrolled to date.

According to Capt. Thomas Petty this enrollment figure is actually greater than it appears because as this year all physically disqualified students were rejected prior to registration. Last year and in previous years all physically disqualified students were rejected after registration.

## From The Sidelines

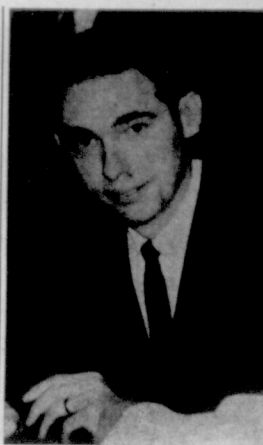

By Ronnie Gill

Indications point towards the biggest football season in history for the UTMB Vols. The record opening game crowd of 2,500 fans at College Field for the Austin Peay game was large, I invite you to attend the Vols next home game when the opponent will be Murray State.

The Vols had little trouble shutting out Austin Peay 16 to 0. They scored on a two-yard run, a 24-yard pass, and a safety. It is difficult to pick out the outstanding players of the game. Everyone performed well. Perhaps more significant than anything else was the fine play by our freshmen. To name a few, there's halfback Jerry Gage, fullback Joel Dickens, guard Lorry Ruth, tackle Frank Scutari, and end Jim Hammond. Transfers have played well, too. Guard Nick Stellavato and tackle John Federico have seen plenty of action for the Vols.

At Conway, Ark., quarterback Vernon Prather showed his ability to place on the all-conference team. He passed for one TD and scored another rushing. He led the VSAC in passing and in total offense last season.

Wilbur Edmiston will have to really hustle to win his statewide title of highest collegiate scorer this season. He

RONNIE GILL

was injured in the first game of the season and will be out for several weeks. He won the title in 1960 and was runner-up in 1961.

Someone in the pressbox at the Austin Peay game said of halfback Tom Pickens who returned the second half kickoff some 40 yards, "If he (Pickens) didn't have jersey num-

ber 42 on, I'd swear it was Wilbur Edmiston." Pickens, a sophomore who played only one quarter last year, replaced Edmiston after he was injured in the Arkansas State game and picked up more yardage than any member of the team. He is among the top rushers in the UTMB statistical charts this week.

Here's a tip on how to keep up with the Vols. All day games will be broadcast over WCMT, 1410, Martin, Tenn. Results of the night contests can be picked up on the ten o'clock news at WDXI-TV, channel 7, Jackson, Tenn.

Here's one final item: Did you know that UTMB might have a chance at a bowl game if they have a good season? Let's all get behind the Vols with our support.
